

## Nical DEMI

The **Nical MX** is a little softener for HO.RE.CA. machines equipped with suction pipe. All its parts are made in plastic materials and in compliance with current Ministerial Decree in relation with the identified destination use.

It's composed by a single column containing a particular blend of resin able to retain all salts presents (cations and anions) making a perfect demineralised water. The resin will change its color once exhausted.

### Reference Parameters and Technical Specifications

**FEEDING WATER**  
DRINKABLE  
**WATER SUPPLY TEMPERATURE**  
2 - 40°C
